

Great news for all CMCM members having subscribed to DENTA & OPTPLUS!

As of January 1st 2019, the CMCM participation for refractive eye surgery has doubled, with a maximum amount increasing from 500€ to 1.000€ for each eye.

Additionally, to avoid the patient having to pay the entire medical intervention up-front, the CMCM has negotiated a third-party payment scheme with certain ophthalmic centers. To benefit from this service, it is imperative to inform the medical center of your CMCM membership prior to the intervention.

Currently, the third-party payment service is available in the following medical centers:

- Cabinet de Chirurgie Réfractive Findel (www.augenlaser.lu)
- Centre Ophtalmologique Monterey (www.centromonterey.lu)
- Centre Ophtalmologique Place de Paris (www.copp.lu)
- Smile Eyes in Trier (www.smileeyes.de/trier)
- Augenerklinik Saar (<http://www.augenlaserklinik-saar.de/>)

This list will be enhanced in the course of the negotiations.

Do, wann Dir eis braucht.
